Passage 6: The Role of Intuition in Decision Making

Technology can be advantageous, but we must be careful. The Internet has made an unbelievable amount of information available. Rather than making the decision-making process easier, this can actually make it harder. Because there is so much information, we might think we have to consider all of it in order to make a good decision. This makes us 'information blinded' when we try to make decisions. We have to keep in mind that intuition plays an important role here. People with great intuition understand the power of keeping analysis simple. They can accomplish things that look impossible because they act. We learn from them that eventually we need to stop analyzing and start acting to get something done.

1. What is the main argument the author presents about decision making in the passage?

Answer: _____

2. Correct the grammatical mistake in the sentence: 'People with great intuition understands the power of keeping analysis simple.'

Answer: _____

3. Rewrite the sentence 'We are information blinded by the abundance of data' using a passive voice.

Answer: _____

4. Explain the term 'information blinded' as used in the passage.

English Passage and Problems : mango

Answer: _____

5. How does the author suggest balancing intuition with information in decision making?

Answer: _____

6. Which of the following is NOT mentioned as a challenge of having too much information?

- A. It overwhelms us.
- B. It confuses us.
- C. It simplifies decisions.
- D. It delays decision making.
- E. It prevents intuition.

7. Choose the correct form: 'We (has/have) to stop analyzing and start acting.'

- A. has
- B. have

8. What is implied about people who rely on intuition in decision making?

- A. They rely too much on data.
- B. They act without analysis.
- C. They simplify complex situations.
- D. They ignore important details.
- E. They avoid responsibility.

9. Which of the following best describes the tone of the passage?

- A. Encouraging
- B. Critical
- C. Neutral

English Passage and Problems : mango

D. Optimistic

E. Cautious

10. Explain how the author distinguishes between over-analyzing and intuitive action.

Answer: _____

11. Why does the author argue that action is more important than analysis in certain situations?

A. It helps us analyze faster.

B. It makes us dependent on data.

C. It plays a positive role.

D. It has no effect.

E. It increases stress.

12. What conclusion can be drawn about the role of technology in decision making?

A. Action needs to be started by us.

B. Actions should be started.

C. We are starting actions.

D. Actions are to be started.

E. The actions will be started by us.

13. Transform the sentence 'We need to start acting' into the passive voice.

Answer: _____

14. What might be a consequence of over-reliance on information without intuition, according to the passage?

15. Based on the passage, how can individuals improve their decision-making skills?

English Passage and Problems : mango

Answer: _____

English Passage and Problems : mango

Explanations

1. The author argues that intuition plays a crucial role in decision making, especially when overwhelmed with information.
2. The correct form is 'understand,' as 'people' is a plural noun.
3. In passive voice, the sentence becomes 'We are blinded by the abundance of data.'
4. 'Information blinded' refers to the overwhelming effect of too much data that hinders decision-making.
5. The author suggests using intuition to keep things simple and avoid over-analysis.
6. The challenge not mentioned is 'It simplifies decisions.' The passage explains how too much information complicates decision making.
7. 'Have' is correct because 'we' is a plural subject.
8. The passage implies that people who rely on intuition can simplify complex situations and take action more effectively.
9. The tone is cautious, warning against the overuse of information and encouraging intuition.
10. The author emphasizes that over-analyzing prevents action, while intuition leads to timely decisions.
11. The author argues that in some cases, over-analysis delays necessary actions.
12. The conclusion is that technology can complicate decision making by providing too much information.
13. The passive form is 'Actions need to be started.'
14. The consequence of over-reliance on information is decision paralysis, where no decision is made due to too much analysis.

English Passage and Problems : mango

15. Individuals can improve decision-making skills by trusting their intuition and not over-analyzing every piece of information.
